

Domae Homes

Domae Homes has been building quality homes for over twenty years. We started as a small “hands-on” custom home builder dedicated to excellence, and have evolved into a well-respected, award-winning residential developer with a quality-driven team focused on building finely crafted homes in the most pristine locations.

The Domae Team is dedicated to developing communities that incorporate the natural beauty of the environment while providing homes with the highest level of design and craftsmanship. Our commitment to quality workmanship and design is enhanced by our dedicated and qualified staff and by our long-term relationship with professional engineers, consultants and construction subtrades.

OUR COMMITMENT

- Continual improvement in everything we do at all levels of our business.
- To provide excellent customer service from your first visit, through the construction of your home and after you move in.
- To preserve and enhance our environment through sustainable building practices.

All members of the Domae team are hired for their level of expertise and pride in workmanship. Domae Home’s attention to detail is achieved as a result of the collected experience of this team and their “quality-focused” approach. While our main focus is quality, we also understand the importance of scheduling, resulting in the best quality home being delivered on-time.

By maintaining very high standards for every phase of the construction process we create homes that we would be proud to live in ourselves. Outstanding quality is our benchmark.

Domae Homes has been involved in the construction of numerous single detached and multi-family residential neighbourhoods throughout the Lower Mainland:

Falcon Heights Subdivision

37 Single Family homes by Domae – Chilliwack, BC

Thom Creek Ranch

34 Detached Single Family homes – Chilliwack, BC

Creekside

8 unit Townhouse Project – Abbotsford, BC

Construction Management of an 80 unit Townhouse Project – Langley, BC

Over 70 single family homes completed throughout the Lower Mainland

Domae Homes (Domae Enterprises Summit Residences) is a registered builder in the Province of British Columbia and is registered in good standing with the Home Protection Office. We are a proud member of the Fraser Valley Home Builders’ Association and Canadian Home Builders’ Association. All homes are built by Domae, and are backed by Travelers Guarantee 2-5-10 Year Home Warranty.

Domae Homes believes that excellence in customer service is about creating a trusting and rewarding home buying and home building experience. We blend the most advanced and innovative construction technologies with the best of traditional craftsmanship to create safe and enduring neighbourhoods for you and your family.
